

FOR IMMEDIATE RELEASE

ecomate[®]

BY FOAM SUPPLIES, INC.

Proud Recipient of the 2008 IBEX Environmental Award

The award was presented to Foam Supplies, Inc. for its ecomate[®] polyurethane flotation foam. The ecomate[®] blowing agent and family of urethane systems is environmentally friendly, as it is non-GWP, non-ODP and is VOC exempt. Ecomate[®] systems are suitable for both pressurized and non-pressurized delivery and use and used in both rigid and flexible system technology. Ecomate[®] flotation systems have passed U.S. Coast Guard approval for use as flotation foam in boats, life rings and buoys. Ecomate[®] offers boat builders a means of replacing previously environmentally-damaging foams with an environmentally benign solution.
